ONBOARD VENDORS WITH EASE

VENDOR USER DOCUMENTATION

Getting Started

Welcome to the VendOnBoard (VOB) vendor onboarding system! This quick start guide walks you through getting started with your VOB account, including essential steps like adding a vendor contact, how to upload required documents and certifications, and getting approved in the system. Now, let's get started!

The VOB system allows company's to provide vendors and subcontractors with a common structure to submit required documents via a white labeled platform, workflow management, signature notification and transaction management.

Once you submit your necessary documents to complete your vendor profile, the company will review each form and someone within the company can approve it electronically. Typically, this is done within 48-72 hours after submittal. This streamlined process allows you to begin working and invoicing earlier and allows our company to manage vendors with a faster authorization time.

Document Expirations

Once you become an approved VOB Vendor is in the system, you will be sent an email reminding you to upload the required forms, which we will mention in further detail below. If you fail to upload any of the required forms, you will be sent monthly reminders that your vendor profile is incomplete and you will be ineligible to receive purchase orders from us.

Of the required documents, the Certificate of Liability Insurance (COLI) and Annual Supplier Representation and Certification (ASRC) are required to be updated annually from the date of initial approval by your company. If the documents pass their annual approval date without being updated, you will begin to receive monthly reminders that they have expired.

Vendor Document Requirements

If you have recently completed a Purchase Order and/or a Subcontract Agreement with your company, these documents are required to be submitted:

- **Form W-9**: A request for Taxpayer Identification Number and Certification.
- **Annual Representations and Certifications (ASRC)**: This online form is required to comply with audit requirements and government requests for information regarding both the character and nature of our Vendors and/or Subcontractors. Additionally, this form helps us build a database of information for potential new projects.
- **Certificate of Liability and Insurance (COLI)**: This uploadable form is required to show that a firm or corporation maintains the proper, minimum insurance coverage. The minimums are as follows:
    - Comprehensive General Liability: at least $2 Million in aggregate.
    - Comprehensive Automobile Liability (Owned, Non-Owned, Hired): at least $1 Million in aggregate.
    - Professional Liability: at least $1 Million
    - Workers' Compensation: in the statutory limits.

- There is an option for you to submit your DCAA/DCMA information if you have an approved accounting system, purchasing system, or other system under the new business systems rules.
- There is a tab to upload and store other relevant documents between us such as NDAs, Teaming Agreements, Subcontracts etc...

Adding a Vendor Contact

When you onto you Vendor profile, you need to add at least one Vendor contact. This contact will act as the point person for all email correspondence and document submission, and can be themselves, or any employee affiliated with your corporation. Since this contact will potentially be uploading sensitive legal information, it is best you use a trusted employee that will have access to these documents. Additionally, this contact will receive all follow up, security, and informational emails to their email address.

You may assign more than one contact into VendOnBoard, as long as they have differing email addresses. However, any contact uploaded will receive all correspondence, which includes monthly document expiration emails.

Waivers

Please note that certain Vendors/Subcontractors may be eligible for a Certificate of Liability Insurance (COLI) waiver. This waiver is primarily for independent contractors acting as an individual subject matter expert, analyst, or small business owner whose insurance doesn't cover any of the basic COLI minimum requirements.

Updating Documents

Certain vendor documents will need to be updated yearly. Built into VOB we have established reminders to be sent to you to inform you of when their documents and certifications are expiring. When the notices are sent out is outlined below:

- **Form W-9**: A W-9 is effective from the date of initial signature. These do not expire unless the vendor wishes to update their payee information (i.e. if they initially sign up as a individual, but now would like to start being paid as a corporation).
- **Annual Supplier Representation and Certification (ASRC)**: An annual notification that an ASRC's have become expired. You will need to log into you profile and reapprove the electronic signature. At this time, you will be able to make any necessary changes to your information.
- **Certificate of Liability Insurance (COLI)**: Thirty (30), sixty (60), and ninety (90) day reminders prior to each annual expiration that you certificate is in danger of becoming expired will be sent to the vendor contact on file. The constant reminders will provide you with enough time to request the COLI from the proper channels.

Rejections

Although vendor form rejections are very rare, it is possible to reject one (1) or more of the documents a vendor has submitted. There are a few cases where a document can be rejected, such as a form being filled out incorrectly, or a form not meeting the minimum requirements.

You will receive an automated email alerting them that a document has been rejected, it will state the reason for rejection, and offer contact to get in touch with if you have any questions or concerns.

At this point, you will be able to resubmit any rejected documents via their VOB vendor portal. Your employee will be notified of their action and will be able to review anything that has been resubmitted when they're reapplying for approvals.

Security

VOB places the utmost importance on the safety and security of any personal information submitted in the vendor registration process. All information and documentation are uploaded via a SSL client and server certificate secured web portal. As an approved Vendor, all web data entry is secured via a password of your choosing that must be at least eight characters long. Any vendor information submitted into VendOnBoard (VOB) are stored in a relational database behind a hardware firewall. Only VendOnBoard Database Administrator can access this database.

Accessing VendOnBoard

Accessing VendOnBoard (VOB) is simple. Please go to www.vendonboard.com.
Next, click on the **Sign In** button on the top right.

Once you click Sign In, it will take you to the login page.
Here is where you will need to request a log in. Please **Click here to request a vendor login**.

Filling Out VOB Vendor Request Forms

Fill in the basic information as an individual, corporation, a non-incorporated entity, etc.
All questions denoted with the * must be completed before moving submitting for approval.

BACK TO LOGIN

SUBMIT CANCEL
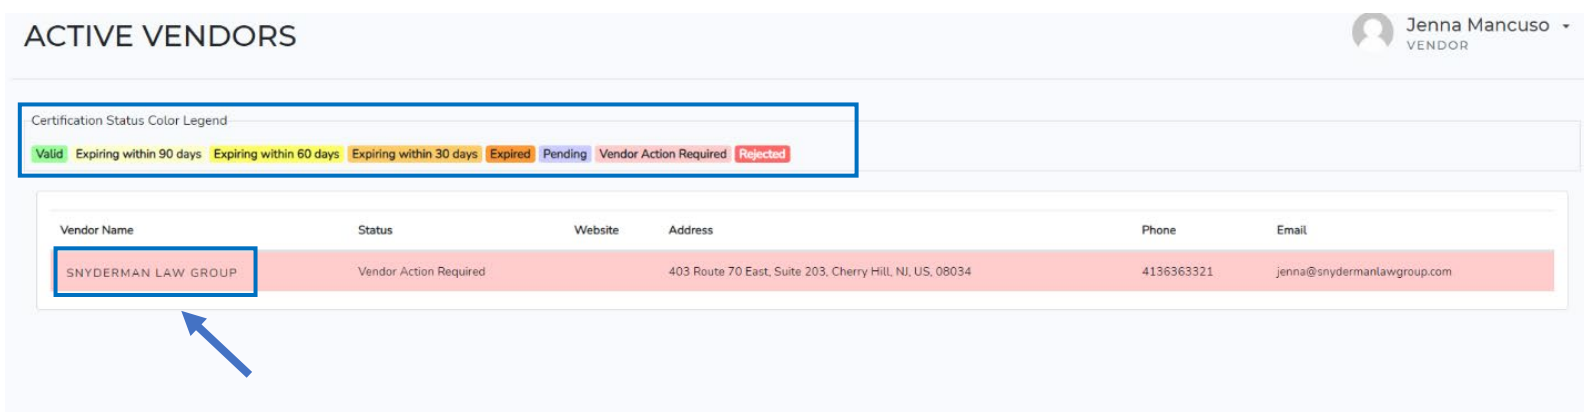

Submit Vendor Forms: Set Up
- Log into the VendOnBoard website via the link in your email, or by typing http://app.vendonboard.com/login into your web browser.
- Login using the Username and Password provided in the email.
- The site will prompt you to change your password, the safest passswords are often eight (8) characters long, contain upper and lowercase letter, and have at least one (1) number.

- Once you have successfully updated your password, you will be directed to your Active Vendor page, which will be color coded as red to signify that a Vendor action is required.
- The **Certificate Status Color Legend** at the top of the page shows the different variations of vendor status and what those colors represent
- By clicking on your **vendor name**, it will bring you to your Vendor Home Page.

Submit Vendor Forms: General Information
- There are three (3) required documents and one (1) optional documents that you will need to submit to become an offical VendOnBoard (VOB) vendor. Each document can be uploaded and/or filled out via the corresponding tabs as down below.
- On the right hand side of the screen displays your Vendor Messages. This informs you on what documents are missing and still need to be completed.
    - Required:
        - Certificate of Liability Insurance (COLI)
        - Annual Supplier Representations and Certifications (ASRC)
        - Form W-9
    - Optional:
        - DCAA/DCMA Letter. If you have a DCAA approved accounting system, or a DCMA approved purchasing system.

Certificate of Liability Insurance

- Click the +ADD button, which will allow you to upload an electronic or scanned copy of your Certificate of Liability Insurance.
- If you are unsure about what a certificate should look like, or the monetary requirements, view a sample document as provided in VOB.
